

Construction

We provide construction contracts advice to clients, contractors, subcontractors and consultants working in the construction industry on all aspects of contracts. We are experts in NEC and PFI contracts. We provide training in NEC and JCT contracts.

Contact us for assistance with:

- Pre-contract advice
- Tender preparation
- Contract analysis & assessment
- Contract administration
- Claims
- Adjudication
- Dispute resolution

As a flexible resource our consultants can either completely manage a construction contract project or work with in-house teams. Consultants with real life experience offer professional commercial advice and management. Our knowledge of construction procurement and the built environment across a wide range of industry sectors means you can be confident in the best possible direction, excellent documentation and professional representation and advice.
